Wednesday, October 12th at 12noon ET for a dynamic
Thought Leadership / Skill Building Call

What does it mean to be fully present?

Why is the capacity for presence so vitally important to coaches and the coaching process?

In addition to being one of the ICF's core coaching competencies, presence is the basis for both the coaching relationship and all meaningful conversation that happens with clients. As coaches, we can be only as effective as our ability to be fully present, awake, and aware.

Our clients' capacity to experience real growth and breakthroughs is directly related to their ability to be present as well, and part of our responsibility is to seed and invite that in them.

Join us for a rich hour of dialogue and experience as we consider the power and importance of presence.
